

ALLEGION™

LCN®

The industry leader
in door control now
offers even more

The industry-leading door control brand is now even better — with enhanced reliability and new solutions for even more applications

LCN cast iron closers now feature improved quality, performance and value

What's in a name? With LCN, it's more than 130 years of leadership and innovation. We invented the original door closer back in 1880, and we've been in the leadership position ever since. Today, Allegion is committed to keeping LCN at the forefront of the industry by continuing to invest in people, processes and products. That includes recent improvements to our legendary line of cast iron door closers, which now offer even greater dependability and longer warranties of up to 30 years.

New cast aluminum closers offer alternative solutions with LCN quality and reliability

Just as we invented the cast iron closer market, we are now redefining the aluminum closer market. Our three new cast aluminum models were designed from the start to integrate the LCN engineering, quality, reliability and service our customers have come to expect from products bearing our well-known name. These new products offer alternative solutions for a wide range of applications. And with the most common hole patterns in the industry, they are ideal for aftermarket replacements.

- Automatic operators & accessories

All LCN door closers have the following certifications:

Grade 1 – ANSI A156.4, UL/cUL (where applicable), ADA, 100 Hour salt spray. Meets BAA – Buy American Act.

Why it pays to choose the best name in door control products

Better reliability means lower total cost of ownership

With LCN closers, you can count on reliable performance year after year, with minimal adjustment and maintenance. That means fewer problems and lower labor costs — over the entire life of the closer — meaning a lower total cost of ownership. Plus, reliable LCN closers provide the peace of mind that comes from knowing you've got a product backed by 130 years of engineering and manufacturing excellence.

The best service and support in the business

With LCN, you get much more than great products. You also get customer service and technical support that we feel is unmatched in the industry. You can count on LCN to stand behind every product we sell, and to be there to answer your questions and offer solutions to unique situations and challenges you may encounter in the field.

One brand for all your door control needs

With LCN's quality, reliability and service — plus a wide range of solutions to meet all your needs — why even consider any other option? LCN is the best-known and most-respected brand in door control, and the one most often asked for by name. So no matter what the application, the choice is easy: LCN.
