

Rocky Mountain Hardware debuts the Paris Collection, a dramatic new collaboration with renowned hospitality interior designer Roger Thomas. The collection includes cabinet hardware and door locksets reminiscent of historical styles from 17th- and 18th-century France with a sense of whimsy, romance, and decorative flair. Cast in solid, art-grade bronze, Thomas stripped away extraneous details typical of this period to capture the timeless silhouettes seen in this new collection.

Roger Thomas is Executive Vice President Design for Wynn Design and Development and has designed many of the world's most famous hotels and resorts including the Wynn Las Vegas, Wynn Macau, Mirage Resort, Treasure Island and the Bellagio Resort. A recognized leader in the hospitality industry, Thomas' recent awards include Architectural Digest's AD 100, for which he was listed in 2007 and 2010. Thomas received the Design Icon distinction from the World Market Center in Las Vegas in 2009. Also that year, he received the Jay Sarno lifetime achievement award at the G2E expo in recognition of his significant career achievements in the field of casino resort interior design.

Roger Thomas

Patina Options

The entire collection is available in your choice of nine patina finishes as pictured to the right. The photos in this brochure give a close representation of these patinas; however, the various elements of time, touch and climate work together with the bronze to create a unique hue. Each piece, then, distinctly reflects its surroundings.
